2026 Health Plan of San Mateo (HPSM) Provider Directory

This Directory of Medi-Cal's network provider lists:

- Health care professionals such as primary care providers (PCP), specialists; and
- Facilities such as hospitals, nursing facilities, skilled nursing facilities, mental health facilities, clinics, and pharmacies; and
- Support providers such as adult day services, assisted living, consumer-directed services, home-delivered meals, and home health agencies.

You may receive services from any of the providers in this Directory. For some services, you may need an authorization approval from your PCP or HPSM.

For more information on how to pick a PCP or change your PCP, please see Section 3, pages 11–13 of the Medi-Cal Evidence of Coverage.

Referrals to Specialty Doctors

You may need a referral to see a specialist or someone that is not your PCP. A referral means that your network PCP must give you approval before you can see the other provider.

Your PCP may decide to refer you to a doctor who is a Specialist so that you can get care for a specific medical condition. Most covered services that are not provided by your PCP, such as specialty services, non-emergency hospital services, laboratory and x-ray services, must be approved in advance by your PCP. Your PCP will refer you to an HPSM specialist doctor, hospital, or other HPSM provider from whom you may receive services. If there is not an HPSM provider available to perform the medical service you need, your PCP will ask HPSM to refer you to a non-HPSM provider for the services. HPSM may not cover the service if you don't get a referral.

For more information on referrals and treatment authorization requests (TARs), please see Section 4, pages 18–19 of the Medi-Cal Evidence of Coverage.

It is not intended to limit uses and disclosures that are permitted by law. However, every way we can use and disclose your health information will fall into one or another of these types.

If you need help choosing a Primary Care Provider (PCP) or medical group, call Member Services at **1-800-750-4776** or **650-616-2133** (TTY: **1-800-735-2929** or dial **7-1-1**) Information printed in the provider directory is subject to change. - **Payment for health services.** We review your health information before approving payment for a treatment your provider has asked for to make sure that it is medically necessary.
- **Improving HPSM operations.** We may use members' health information to review our providers' performance and compare the quality of our services with that of other health plans.
- **Care management.** Sharing your health information with your providers allows us to review your treatments and medications to make sure they do not conflict with each other.
- **Resource referrals.** We may identify and recommend HPSM benefits, services and/or programs based on your health information.
- **Contractors who assist in our operations.** Contractors agree to keep health information confidential and secure, and to only use it to assist us. For example, we contract with a "Pharmacy Benefit Manager" and provide them with the information they need to pay our members' pharmacy claims.
- **Health insurance program sponsors.** Employers and other organizations contract with HPSM so that we can provide health care services and pay claims. They agree to keep health information confidential and secure, and to only use it to assist us. If you have a plan sponsor, we may notify them when you enroll in or disenroll from our plan. We may also disclose your health information so the sponsor can audit HPSM's performance.
- **Family members or individuals involved in your care or payment for your care.** We may release your health information to family members or others who pay for your health care. We would do this if it is necessary to enable them to pay for your care or make decisions about your care. We only disclose your health information if you are present and agree to it, except when:
 - Your medical condition prevents you from making decisions and we believe that disclosing your information would be in your best interest.
 - After your death (unless you tell us beforehand not to share your information).
- **Schools.** A school may be legally required to have proof of immunization for a student enrolling or enrolled in the school. In those cases, we may provide the school with that student's immunization record.

These activities are necessary to enable the government to monitor the health care system and government health benefit programs.
- **For lawsuits and disputes** if ordered by a court, tribunal, subpoena or other lawful process. We only do this after unsuccessful efforts to notify you of the request or obtain an order protecting the information requested.

Authorization

Other than the situations described above, we do not allow use and disclosure of your health information without your written permission or authorization. For example, we may use and share health information about you for research purposes only if we have your authorization. Your decision to grant us an authorization will not affect your medical treatment, health plan benefits, payment for treatment or enrollment eligibility. You have the right to revoke your authorization even after you have signed an authorization for use or release of your health information. In that case, we would no longer use or disclose your health information for that purpose. However, we cannot reverse any disclosures we made during the time we had your permission to do so.

- **Uses and disclosures related to reproductive health care.** Unless we have received an authorization from you, we are prohibited from disclosing your health information when the request is made by someone other than you or your personal representative for either of the following activities ("Prohibited Purposes"):
 - To conduct a criminal, civil, or administrative investigation into or impose criminal, civil, or administrative liability on any person for the mere act of seeking, obtaining, providing, or facilitating reproductive health care, where such health care is lawful under the circumstances in which it is provided.
 - The identification of any person for the purpose of conducting such investigation or imposing such liability.

If you need help choosing a Primary Care Provider (PCP) or medical group, call Member Services at **1-800-750-4776** or **650-616-2133** (TTY: **1-800-735-2929** or dial **7-1-1**) Information printed in the provider directory is subject to change. For the most recent information, visit hpsm.org/choose-a-provider.

For example, we may receive a subpoena requesting a member's records, and the subpoena was issued in a case seeking to prosecute a provider for prescribing a medication that could terminate a pregnancy or impact fertility, or to prosecute a member for taking such medication. In that situation, if the prescription or ingestion of that medication was lawful under the circumstances, we are prohibited from providing any PHI in response to the request.

If we receive a request for records from someone other than you or your personal representative, and the requested records contain PHI that potentially relates to reproductive health care, we are required to obtain an attestation from the requestor if the request is for any of the following purposes:

- Health oversight activities
- Judicial and administrative proceedings
- Law enforcement purposes
- Disclosures to coroners and medical examiners

The attestation must include specific information about the request, a statement that the request is not for any of the Prohibited Purposes, a statement that an individual signing an attestation known to be false is subject to criminal penalties under federal law, and it must be signed by the requestor. We are prohibited from responding to requests that require an attestation if the attestation does not meet all legal requirements.

For example, we may receive a subpoena requesting a member's records from state law enforcement officials related to the criminal prosecution of an individual accused of submitting false claims to insurance companies, unrelated to reproductive health care. While the purpose of the investigation is not a Prohibited Purpose, the records requested contain PHI potentially related to reproductive health care, such as claims paid for pregnancy-related conditions. In that situation, we will require the law enforcement official to provide a valid, signed attestation before we will respond to the request.

Even where we receive a valid attestation, we will still ensure that the request satisfies all requirements under federal law before we disclose any PHI.

Note that there is a potential that information disclosed to third parties may no longer be protected by HIPAA, and those third parties could re-disclose your information.

 - If we deny your request to amend your health information, we will tell you why and explain your right to file a written statement of disagreement..
