# 2026 Health Plan of San Mateo (HPSM) Provider Directory

This Directory of Medi-Cal's network provider lists:

- Health care professionals such as primary care providers (PCP), specialists; and
- Facilities such as hospitals, nursing facilities, skilled nursing facilities, mental health facilities, clinics, and pharmacies; and
- Support providers such as adult day services, assisted living, consumer-directed services, home-delivered meals, and home health agencies.

You may receive services from any of the providers in this Directory. For some services, you may need an authorization approval from your PCP or HPSM.

For more information on how to pick a PCP or change your PCP, please see Section 3, pages 11–13 of the Medi-Cal Evidence of Coverage.

## Referrals to Specialty Doctors

You may need a referral to see a specialist or someone that is not your PCP. A referral means that your network PCP must give you approval before you can see the other provider.

Your PCP may decide to refer you to a doctor who is a Specialist so that you can get care for a specific medical condition. Most covered services that are not provided by your PCP, such as specialty services, non-emergency hospital services, laboratory and x-ray services, must be approved in advance by your PCP. Your PCP will refer you to an HPSM specialist doctor, hospital, or other HPSM provider from whom you may receive services. If there is not an HPSM provider available to perform the medical service you need, your PCP will ask HPSM to refer you to a non-HPSM provider for the services. HPSM may not cover the service if you don't get a referral.

For more information on referrals and treatment authorization requests (TARs), please see Section 4, pages 18–19 of the Medi-Cal Evidence of Coverage.

For example, we may use and share health information about you for research purposes only if we have your authorization. Your decision to grant us an authorization will not affect your medical treatment, health plan benefits, payment for treatment or enrollment eligibility. You have the right to revoke your authorization even after you have signed an authorization for use or release of your health information. In that case, we would no longer use or disclose your health information for that purpose. However, we cannot reverse any disclosures we made during the time we had your permission to do so.

- **Uses and disclosures related to reproductive health care.** Unless we have received an authorization from you, we are prohibited from disclosing your health information when the request is made by someone other than you or your personal representative for either of the following activities ("Prohibited Purposes"):
    - To conduct a criminal, civil, or administrative investigation into or impose criminal, civil, or administrative liability on any person for the mere act of seeking, obtaining, providing, or facilitating reproductive health care, where such health care is lawful under the circumstances in which it is provided.
    - The identification of any person for the purpose of conducting such investigation or imposing such liability.

**?** If you need help choosing a Primary Care Provider (PCP) or medical group, call Member Services at **1-800-750-4776** or **650-616-2133** (TTY: **1-800-735-2929** or dial **7-1-1**) Information printed in the provider directory is subject to change. For the most recent information, visit hpsm.org/choose-a-provider.

For example, we may receive a subpoena requesting a member's records, and the subpoena was issued in a case seeking to prosecute a provider for prescribing a medication that could terminate a pregnancy or impact fertility, or to prosecute a member for taking such medication. In that situation, if the prescription or ingestion of that medication was lawful under the circumstances, we are prohibited from providing any PHI in response to the request.

If we receive a request for records from someone other than you or your personal representative, and the requested records contain PHI that potentially relates to reproductive health care, we are required to obtain an attestation from the requestor if the request is for any of the following purposes:

- Health oversight activities
- Judicial and administrative proceedings
- Law enforcement purposes
- Disclosures to coroners and medical examiners

The attestation must include specific information about the request, a statement that the request is not for any of the Prohibited Purposes, a statement that an individual signing an attestation known to be false is subject to criminal penalties under federal law, and it must be signed by the requestor. We are prohibited from responding to requests that require an attestation if the attestation does not meet all legal requirements.

For example, we may receive a subpoena requesting a member's records from state law enforcement officials related to the criminal prosecution of an individual accused of submitting false claims to insurance companies, unrelated to reproductive health care. While the purpose of the investigation is not a Prohibited Purpose, the records requested contain PHI potentially related to reproductive health care, such as claims paid for pregnancy-related conditions. In that situation, we will require the law enforcement official to provide a valid, signed attestation before we will respond to the request.

Even where we receive a valid attestation, we will still ensure that the request satisfies all requirements under federal law before we disclose any PHI.
