Pediatric Vaccination Clinics Available Now!

Dear primary care providers,

COVID-19 vaccinations are approved for children ages 5-11 and are critical in the fight against the pandemic. If you are unable to vaccinate your pediatric patients yourself right away, several free vaccination clinics are available now!

To see all available clinics, please visit www.smchealth.org/pedsvaccine. These clinics can also be viewed in MyTurn.

From the website:

San Mateo County Health is offering pediatric COVID-19 vaccines at eight sites throughout the county during the month of January. Free and open to the public, these clinics will offer the Pfizer vaccine to children aged 5-11. Boosters and vaccines for other ages will not be available.

The website above is updated frequently with information about new vaccination clinics.

If you have any questions about becoming a vaccinator or COVID-19 vaccine resources, please go to www.hpsm.org/provider-covid-resources/ or contact our Provider Services department at PSInquiries@hpsm.org.

Thank you for your continued commitment to our community,
The Health Plan of San Mateo
